

INNOVATIVE DESIGN FROM RACINE RAILROAD PRODUCTS

**Racine Railroad Products offers three cart models for your hauling needs. From heavy duty rail section delivery to light duty tool transport you are ready to roll.**

## Maintenance Cart

### Heavy Duty

The structural steel design with durable steel decking is perfect for transporting many types of track materials. Cast ductile wheels with heavy-duty axles and bearings for long life. Designed and built for many years of maintenance free service.

### Two Models

The 10,000 lb capacity cart is perfect for transporting spikes, screws, rail anchors and resilient fasteners. The 30,000 lb capacity cart has been designed for transporting rail sections.

### Available Options:

Non-insulated Axles, Hand Parking Brake, Stake Pockets, Remote Axle Lubrication

### Specifications

10,000: 7' L x 68.5" W x 20.5"H

Weight: 1350 Lbs

30,000: 17' L x 76" W x 22" H

Weight: 4000 Lbs

## Push Cart

### Lightweight & Maneuverable

The Push Cart can be utilized for moving up to 2,750 lbs of track material or maintenance-of-way tools. At only 99 lbs, two men easily maneuver it. The removable handlebars are interchangeable on both ends for ease in operation. Can easily be maneuvered through points and crossings. Failsafe brakes are fitted to ensure safety. Optional cage walls available.

### Durable and Versatile

Replaceable decking and simple yet rugged design ensures many years of maintenance free service. Three carts can be connected to increase capacity.

### Specifications:

Dimensions: 32"L x 9.5"H x 66.5"W

Weight: 99 lb
