

I" Hydraulic Impact Wrench 910088

INNOVATIVE DESIGNS FROM RACINE RAILROAD PRODUCTS

Powerful and Efficient

The I" Hydraulic Impact Wrench uses an efficient hydraulic motor and heavyduty impact mechanism to produce 2800 ft-lbs of torque.

Operator Comfort

- Cushion grips maintain low torque and low vibration transfer towards the operator.
- Heat transfer is lessened with remote handholds.
- Unique front swing handle for vertical or horizontal operation.

The I" Hydraulic Impact Wrench is designed to tighten and loosen track bolts and lag screws.

Easy Serviceability

 Maintenance is easy with standard grease fittings for lubrication of the impact mechanism (without removing the impact assembly).

Specifications
